

PRODUCT INFORMATION

vitalit® Light Box

Product Features

- Available for UVH 255 and UVF 400(F)
- 4 curing levels
- mechanical shutter for safety reason

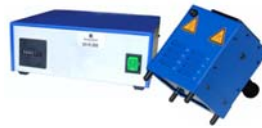

Advantages:

- Cost effective cabinet system
- UV lamps easily interchangeable

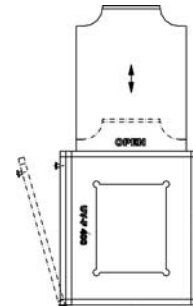

Technical features

- **Top-plate adapted for each type of lamps**

For UVH 255

- **Mechanical shutter for security purposes**
Opening the door is impossible before the shutter has been slid into the box.

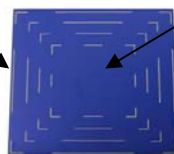

- **4 curing levels with different curing area**
Curing energy and area depend on the level (see below the energy diagram)

Level 4:

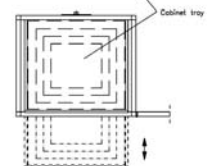

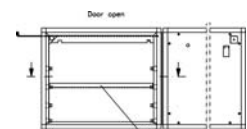

- large curing area
- low energy

Cabinet tray

Level 1:

- Small curing area
- high energy

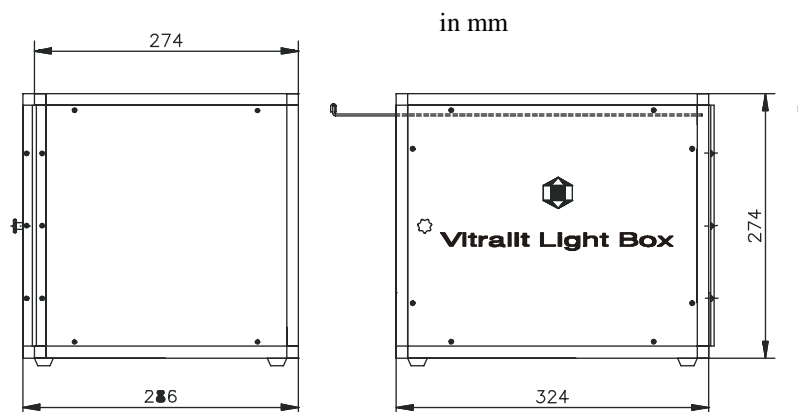

Adhesives
and more ...
